Company overview

Nirvana Trading Company has been active in the field of production and supply of various types stones with its modern machinery and advanced equipment for many years. This company has succeeded in gaining a top rank among producers in this field in the Middle East relying on specialized personnel and utilizing modern science. Nirvana Trading Company intends to expand its business interaction and enter the international arena by producing high-quality products maintaining and satisfying customers and traders.

Business Description

The combination of one or more minerals has led to the formation of various types of rocks, which is one of the main materials in the field of construction. Stones are the first human building materials widely used in the construction industry due to their strength and quality. Choosing a suitable and high-quality building stone is very important. A good stone should have an intact appearance, with no cracks or scratches. Nowadays, many countries in the world are engaged in the production of various types of building stones, including China, India, Italy, Turkey, and Brazil are the largest producers in this field in the world. Nirvana Trading Company has managed to produce the highest quality types of building stones among the major producers in this field offering them to the sales global market by using huge mines and modern machinery
